DESIGN CONSULTANCY | PROJECT MANAGEMENT | TURNKEY SOLUTION

INTRODUCTION

8+

YEARS OF EXPERIENCE IN THE INDUSTRY

PRAGATHI STUDIO

DESIGN CONSULTANCY | PROJECT MANAGEMENT | TURNKEY SOLUTION

TRANSFORMING SPACES WITH SUSTAINABLE DESIGN SOLUTIONS

Founded in September 2017 , we are a team of enthusiastic and committed Architects & Engineers dedicated to delivering high quality work and meeting deadlines in the interior fitout industry across various sectors .Our core strength and strategic approach have garnered us recognition and built lasting trust with every client we've worked with.

Supported by a passionate team of designers and project managers ,we approach each project with a commitment to excellence and a vision for a more sustainable and prosperous future

THE JOURNEY SO FAR

PRAGATHI : OUR STORY

PRAGATHI STUDIO
DESIGN CONSULTANCY | PROJECT MANAGEMENT | TURNKEY SOLUTION

With over **2 decades+** of experience in project management, we observed a significant gap in the industry: a shortage of dedicated contracting firms capable of delivering quality work and timely completion. Many organizations struggled to meet these needs for various reasons.

When an opportunity arose to venture into contracting, we initially continued to provide project management services. However, by a stroke of luck, one of our trusted mentors presented us with an urgent project that required contracting services. We successfully delivered both quality work and on-time results, which earned praise from our mentors and clients alike. This success bolstered our confidence and motivated us to establish our contracting firm, officially registering in 2017.

As our business grew, we remained committed to our passion and dedication. Our tireless efforts led to widespread recognition for completing challenging projects on schedule. Over time, we have expanded our client base while maintaining strong relationships with existing clients, resulting in a steady flow of repeat and ongoing projects.

M. SAMEEULLAH | DIRECTOR

With over two decades of experience in managing corporate interior projects, I am highly enthusiastic and passionate about my work. I have successfully led and delivered projects spanning over 2 million square feet PAN India.

My background includes working with prestigious companies, where I have earned recognition and praise from clients for my exceptional professional skills and project management techniques. As a capable team leader, I excel in identifying and leveraging the strengths of my colleagues and subordinates to achieve maximum precision and efficiency. I am also a skilled negotiator, with a strong focus on achieving targets and ensuring timely project completion.

ADARSH Y.C | DIRECTOR

I am a young, dynamic, and self-driven individual who embarked on a career in the contracting industry at a very early age. Passionate about my work, I am well-skilled and know how to get the job done efficiently.

Known for my frank and honest approach, I value transparency and fairness in all interactions. I have independently managed and successfully completed a range of challenging and critical projects. My reputation for delivering projects on time has earned me appreciation from clients and colleagues, leading to repeated business opportunities.

To date, I have successfully completed over 5 million square feet of projects, satisfying more than 100 clients.

JOHN JOHN N | DIRECTOR

I have led design studios and trained designers at various levels, actively participating in all stages of projects—from conceptual planning and sketches to design development, detailing, and final completion.

With extensive experience and exceptional skills in coordinating with MEP, AV, LEED, wellness, kitchens, IT labs, consultants, and contractors, I bring a comprehensive understanding to every project. Over my 23 years of experience, I have managed projects both across India and internationally, designing over 10 million square feet of office spaces, including corporate offices, retail environments, hospitality designs, data centers, client experience centers, and residential projects.
